Risks

This Quarterly Report on Form 10-Q contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These include, among other things, statements regarding the growth of our business and revenues. Our expectation that the continuing shift from an offline to online world will continue to benefit our business. Our expectation that our monetization trends will fluctuate, which could affect our revenues and margins. fluctuations in paid clicks and cost-per-click. forward-looking statements may appear throughout this report and other documents we file with the Securities and Exchange Commission (SEC), including without limitation, the following sections: Part I, Item 2, "Management's Discussion and Analysis of Financial Condition and Results of Operations" in this Quarterly Report. The expected timing, amount, and effect of Alphabet Inc.'s share repurchases and dividends. forward-looking statements are based on current expectations and assumptions that are subject to risks and uncertainties. Factors that could cause or contribute to such differences include, but are not limited to, those discussed in this Quarterly Report on Form 10-Q; the risks discussed in Part I, Item 1 A, "Risk Factors" in our Annual Report for the fiscal year ended December 31, 2023. "Alphabet," "the company," "we," "us," "our," and similar terms include Alphabet Inc. and its subsidiaries, unless the context indicates otherwise. We do not intend. our use or display of other companies' trade names or trademarks to imply an endorsement or sponsorship of us by such companies. We are subject to claims, lawsuits, regulatory and government investigations, other proceedings, and consent. orders involving competition, intellectual property, data security, tax and related compliance, labor and employment, commercial disputes, content generated by our users, goods and services offered by advertisers or publishers using. our platforms, personal injury, consumer protection, and other matters. We have ongoing legal matters relating to Russia. In the three and six months ended June 30, 2024, we repurchased \$15.6 billion and \$31.7 billion, respectively, of Alphabet's Class A and Class C shares. In April 2023, the Board of Directors of Alphabet authorized the company to repurchase up to \$70.0 billion of its. Class A or Class C Shares. As of June 30, 2024, \$74.9 billion remained available for Class A. and Class. C share repurchases. As of June 30, 2024, we had material purchase commitments and other contractual obligations of \$54.9 billion, of which \$41.0 billion was short-term. In certain instances, the amount of our contractual obligations may change. based on the expected timing of order fulfillment from our suppliers. Our website is located at www.abc.xyz, and our investor relations website is at <http://www.abc.xyz/investor>. Access to our Annual Reports on Form 10-K, Quarterly Reports on forms 10-Q and 8-K and our Proxy Statements is available on our Investor Relations website. For quantitative and qualitative disclosures about market risk, refer to Part II, Item 7 A, Quantitative and. Qualitative Disclosures About Market Risk, in our Annual Report on Form 10-K for the year ended December 31, 2023. Our operations and financial results are subject to various risks and uncertainties, including those described in. Part I, Item 1 A, "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2023. Below are. material changes to our business, financial condition, results of operations, cash flows, and the trading price of our stock. We generated more than 75% of total revenues from online advertising in 2023. Many of our advertisers, companies that distribute our products and services, digital publishers, and content providers can terminate their contracts with us at any time. Failing to provide superior value or deliver advertisements effectively and competitively could harm our business, reputation, financial condition, and operating results. The following table presents information with respect to Alphabet's repurchases of Class A and Class C stock. during the quarter ended June 30, 2024. Repurchases are being executed from time to time, subject to general business and market conditions and other. investment opportunities. The repurchase program does not have an expiration date. Average price paid per share includes costs associated with the repurchases. For additional information, see Note 9 of the

Financials

Alphabet Inc. (Exact name of registrant as specified in its charter) (I.R.S. Employer Identification Number) 1600 Amphitheatre Parkway, Mountain View, CA 94043. The consolidated financial statements of Alphabet include the accounts of Alphabet and entities consolidated under the variable interest and voting models. Intercompany balances and transactions have been eliminated. In November 2023, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update. (ASU) 2023-07 "Segment Reporting" In December 2023, the FASB issued ASU 2023-09 "Income Taxes (Topic 740): Improvements to Income Tax Disclosures" We will adopt ASU. 20 23-09 for our annual periods beginning January 1, 2025. We are currently evaluating the potential effect that the updated standard will have on our financial statement disclosures. Google Cloud 8,03110,34715,48519,921. Other Bets 285365573860. Hedging gains (losses) 310287174. Total revenues \$ 74,604 \$ 84,742 \$ 144,391 \$ 165,281. The revenue backlog as revenues over the next 24 months with the remaining to be recognized thereafter. Revenue backlog includes related deferred revenue currently recorded as well as amounts that will be invoiced in future periods. Deferred revenues primarily relate to Google Cloud and Google subscriptions, platforms, and devices. The following tables summarize our cash, cash equivalents, and marketable securities measured at fair value on a recurring basis (in millions): As of December 31, 2023. Gross Cash and Fair Value Adjusted Unrealized Unrealized Cash Marketable. Cost Gains Losses Fair Value Equivalents Securities. As of June 30,

2024. \$ 24,048 \$ 86,868. (1) Represents gross unrealized gains and losses for debt securities recorded to accumulated other comprehensive income. (2) The long-term portion of marketable equity securities of \$1.4 billion as of December 31, 2023 is included within other non-current assets. Investments Measured at Fair Value on a Nonrecurring Basis. Mortgage-backed and asset-backed securities Level 22,86202,862. Total investments. with fair value. change recorded in. net income \$ 20,738 \$ 7,302 \$ 13,436. \$2.2. billion were remeasured at fair value during the three months ended June 30, 2024. The following tables present fair values and gross unrealized losses recorded to AOCI, aggregated by investment category. Government bonds \$ 13,602 \$ (99) \$ 6,385 \$ (348) \$ 19,987 \$ (447) Corporate debt securities 3,456 (8) 10,636 (394) 14,092 (402) Mortgage-backed and asset-backed securities 4,534 (43) 6,887 (535) 11,421 (578) The carrying values for marketable and non-marketable equity securities are summarized below (in millions): As of December 31, 2023 As of June 30, 2024. See Note 6 for further details on OI&E. Unrealized gain (loss) on non-marketable equity securities accounted for under the measurement alternative is comprised. of \$75 million and \$319 million of upward adjustments. (including impairments) for the three months ended June 30, 2023 and 2024, respectively. Cumulative net gains (losses) are calculated as the difference between the sale price and the initial purchase price for the equity security sold during the period. As of December 31, 2023 and June 30, 2024, equity securities accounted for under the equity method had a carrying value of approximately \$1.7 billion and \$2.1 billion, respectively. Our share of gains and losses, including impairments, are included as a component of OI&E, in the Consolidated Statements of Income. We designate foreign currency forward and option contracts (including collars) as cash flow hedges to hedge certain forecasted revenue transactions denominated in currencies other than the United States (U.S.) dollar. Cash flow hedge amounts included in the assessment of hedge effectiveness are deferred in AOCI and subsequently reclassified to revenue when the hedged item is recognized in earnings. We use derivatives not designated as hedging instruments to manage risks relating to interest rates, commodity prices, and credit exposures. Gains and losses arising from other derivatives are primarily reflected within the "other" component of OI&E. See Note 6 for further details. The fair values of outstanding derivative instruments were as follows (in millions): As of December 31, 2023 As of June 30, 2024. The gains (losses) on derivatives in cash flow hedging and net investment hedging relationships recognized in other comprehensive income (OCI) are summarized below. Gains (Losses) Recognized in Income: Three months Ended June 30, 2023 2024. Other income Other income. Revenues (expense), net Revenue (exp expense), net. Total amounts in the Consolidated Statements of Income \$ 144,391 \$ 855 \$ 165,281 \$ 2,969. We enter into master netting arrangements and collateral security arrangements to reduce credit risk. Cash and non-cash collateral pledged related to derivative instruments are included in other current assets. Derivatives assets \$ 535 \$ (82) \$ 453 \$ (213) \$ (75) \$ 165. As of December 31, 2023 and June 30, 2024, assets that can only be used to settle obligations of these VIEs. were \$4.9 billion and \$3.7 billion, respectively. liabilities for which creditors only have recourse to the VIE were \$2.5 billion and £2.3 billion. In July 2024, Alphabet committed to fund up to \$5.0 billion for the ongoing operations of Waymo. We have investments in VIEs in which we are not the primary beneficiary. We have a debt financing program of up to \$10.0 billion through the issuance of commercial paper. Net loss attributable to noncontrolling interests was not material for any period presented. We have a debt financing program of up to \$10.0 billion through the issuance of commercial paper. Net proceeds from this program are used for general corporate purposes. We had no commercial paper outstanding as of December 31, 2023 and June 30, 2024. The allowance for credit losses on accounts receivable was \$771 million and \$850 million as of December 31, 2023 and June 30, 2024. Property and equipment, net, consisted of the following (in millions): Land and buildings \$ 74,083 \$ 78,641. Information technology assets 80,594 91,994. Leasehold improvements 11,425 12,010. European Commission fines are included in accrued expenses and other. current liabilities on our Consolidated Balance Sheets. Amounts include the effects of foreign exchange and interest. Other comprehensive income (loss) before reclassifications 831 296 (50) 1,077. The effects on net income of amounts reclassified from AOCI were as follows. Unrealized gains (losses) on available-for-sale investments. Other income (expense), net. Benefit (provision) for income taxes 566 513 815 3. Net of income tax (198) (230) (490) (541) Interest income \$ 892 \$ 1,090 \$ 1,689 \$ 2,151. Interest expense (1) (43) (67) (123) (161) Foreign currency exchange gain (loss), net (268) (173) (478) (411) Gain (loss) on debt securities, net (304) (310) (597) (772) Loss on equity securities (205) (714) 1721,529. Goodwill. Changes in the carrying amount of goodwill for the six months ended June 30, 2024 were as

follows (in. millions): Google Services Google Cloud Other Bets Total. As of June 30, 2024, we did not have any material indemnification claims that were probable or reasonably possible. We record a liability when we believe that it is. We have content licensing agreements with future fixed or minimum guaranteed commitments of \$9.7 billion. As of June 30, 2024, we did not have any material indemnification claims that were probable or reasonably possible. We record a liability when we believe that it is probable that a loss has been incurred, and the amount can be. reasonably estimated. If we determine a loss is reasonably possible, we disclose the reasonably possible loss. On July 18, 2018, the EC announced its decision that certain provisions in Google's Android-related. distribution agreements infringed European competition law. The EC decision imposed a €4.3 billion (\$5.1 billion as of June 30, 2018) fine and directed the termination of the conduct at issue. In 2018, we recognized a. charge of \$5. 1 billion for the fine, which we reduced by \$217 million in 2022. Google has been the target of several lawsuits and investigations. The U.S. Department of Justice (DOJ) and a number of state Attorneys General filed a lawsuit alleging that Google violated antitrust laws relating to Search. and Search advertising. Google is subject to a number of antitrust investigations. Google says it has strong arguments against these claims and will defend itself vigorously. We continue. to cooperate with federal and state regulators in the U.S., the EC, and other regulators around the world. We have had patent, copyright, trade secret, and trademark infringement lawsuits filed against us. We believe we have strong arguments against these claims and will defend ourselves vigorously. We continue. to cooperate with federal and state regulators in the U.S., the EC, and other regulators around the world. Basic net income per share: Numerator. Allocation of distributed. earnings (cash. dividends paid) \$ O \$ O. \$1,173 \$ 173 \$ 1,120 \$ 2,466. Reallocation of. undistributed earnings 8,600 1,275 8,493 18,368 10,046 1,484 9,623 21,153. Net income \$ 9,800 \$ 1.265 \$ 8,568 \$ 18,368 \$ 12,736 \$ 1,639 \$ 10,883 23,619. Diluted net income per share \$ 1.44 \$1.44. Not applicable for consolidated net income. Number of shares used. in basic computation 5,931 879 5,858 12,668 5,862 866 5,615 12,343. Weighted-average effect of dilutive. securities. outstanding 87900. For the three months ended June 30, 2023 and 2024, total stock based compensation (SBC) expense was. \$ 17,812 \$ 2,299 \$ 15,607 \$ 33,419 \$ 25,485 \$ 3,282 \$ 21,796 \$ 47,281. (1) Not applicable for consolidated net income per share. Holders of each class are entitled to equal per share dividends or. distributions in liquidation. For the three months ended June 30, 2023 and 2024, total stock based compensation (SBC) expense was. \$5.4 billion and \$ 5.9 billion, including amounts associated with awards we expect to settle in Alphabet stock. units are awarded dividend equivalents, which are subject to the same vesting conditions as the underlying award, and settled in Class C shares. As of June 30,. 2024, there was \$43.9 billion of unrecognized compensation cost related to unvested RSUs. We are subject to income taxes in the U.S. and foreign jurisdictions. Significant judgment is required in evaluating our uncertain tax positions and determining our provision for income taxes. The total amount of gross unrecognized tax benefits was \$9.4 billion and \$10.7 billion. Revenues. from Other Bets are generated primarily from the sale of healthcare-related services and internet services. Certain costs are not allocated to our segments because they represent Alphabet-level activities. Charges associated with employee severance and office space. reductions during 2023 and employee. severance in 2024 were also not allocated for our segments. Revenues: Google Services \$ 66,285 \$ 73,928 \$ 128,246 \$ 144,326. Google Cloud 8,031 10,347 15,485 19,921. Other Bets 285 365 573 860. Hedging gains (losses) 310 287 174. Total revenues \$ 74,604 \$ 84,742 \$ 144,391 \$ 165,281. See Note 2 for information relating to revenues by geography. Alphabet is a collection of businesses — the largest of which is Google. We report Google in two segments, Google Services and Google Cloud; we also report all non-Google businesses collectively as Other Bets. We generate revenues by delivering relevant, cost-effective online advertising and cloud-based solutions. Google advertising revenues are comprised of Google Search & other, YouTube ads, and Google Network revenues. Google Services revenues consist of Google advertising as well as Google subscriptions, platforms, and devices revenues. fluctuations in our revenues generated from advertising, revenues from. other sources, Google Cloud, and Other Bets revenues. Cost-per-click is defined as click-driven revenues divided by our total number of paid clicks and represents the average amount we charge advertisers for each engagement by users. Impressions include impressions displayed to users on Google Network properties participating primarily in. AdMob, AdSense, and Google Ad Manager. Google Cloud revenues are comprised of the following: • Google Cloud Platform, which generates consumption-based fees and subscriptions for infrastructure, platform, and other services. Revenues from Other Bets are generated primarily from the sale of

healthcare-related services and internet services. Cost of revenues is comprised of TAC and other costs of revenues. TAC includes amounts paid to our distribution partners who make available our search access points and services. Other cost of revenues primarily includes compensation expense related to our technical infrastructure and other operations. Operating expenses are generally incurred during our normal course of business. R&D, sales and marketing, or general and administrative expenses are the main components of our operating expenses. OI&E, net primarily consists of interest income (expense), the effect of foreign currency exchange gains, and impairment on our marketable and non-marketable securities, performance fees, and income (loss) and impairment from our equity method investments. The provision for income taxes represents the estimated amount of federal, state, and foreign income taxes, incurred in the U.S. and the many jurisdictions in which we operate. See "Use of Non-GAAP Constant Currency Measures" below for details relating to our use of constant currency information. Revenues were \$84.7 billion, an increase of 14% year over year. Total constant currency revenues, which exclude the effect of hedging, increased 15%. Cost of revenues was \$35.5 billion. Dividend payments to stockholders of Class A, Class B, and Class C shares were \$1.2 billion, \$173 million, and \$1 billion. On July 23, 2024, Alphabet announced a cash dividend of \$0.20 per share that will be paid on September 16, 2024. Repurchases of Class A and Class C shares were \$3.3 billion and \$12.3 billion, respectively, totaling \$15.6 billion for the three months ended June 30, 2024. Operating cash flow was \$26.6 billion. Capital expenditures, which primarily reflected investments in technical infrastructure, were \$13.2 billion. Google Search & other revenues increased \$5.9 billion and \$11.7 billion from the three and six months ended June 30, 2023 to the 3 and 6 months ended June 30, 2024, respectively. Google Network revenues decreased \$489 million from the six months ended June 30, 2024 primarily driven by a decrease in AdSense revenues. Google Cloud revenues increased \$2.3 billion from the three and six months ended June 30, 2023. Google subscriptions, platforms, and devices revenues increased by \$1.2 billion. Google Network revenues were adversely affected by changes in foreign currency exchange rates. Google Cloud revenues increased \$2.3 billion and \$4.4 billion from the three and six months ended June 30, 2023 to the 3 and 6 months ended July 30, 2024. The growth was primarily driven by an increase in subscription revenues, largely from growth in the number of paid subscribers for YouTube services. We believe the presentation of results on a constant currency basis in addition to GAAP results helps improve the ability to understand our performance. Constant currency information compares results between periods as if exchange rates had remained constant. We define constant currency revenues as revenues excluding the effect of foreign currency exchange rate movements. Total constant currency revenues of \$85.9 billion for the three months ended June 30, 2024 increased \$11.3 billion. EMEA revenue growth was unfavorably affected by changes in foreign currency exchange rates, primarily due to the U.S. dollar strengthening relative to the Turkish lira. Total constant currency revenues of \$166.8 billion for the six months ended June 30, 2024 increased \$22.5 billion compared to \$144.4 billion in revenues, excluding hedging effect, for the six months ended June 30, 2023. EMEA revenue growth was not materially affected by changes in foreign currency exchange rates, as the effect of the U.S. dollar strengthening relative to the Turkish lira was largely offset. APAC revenue growth was unfavorably affected by changes in Foreign Currency Exchange Rates, primarily due to the US dollar strengthening relative to the Japanese yen. Costs and Expenses. Cost of revenues increased \$3.6 billion from the three months ended June 30, 2023 to the three and six months ended June 30, 2024 due to an increase in other cost of revenues and TAC of \$2.7 billion and \$850 million, respectively. The TAC rate decreased from 21.6% to 20.7% and decreased from 21.5% to 20.9% from the six months ended June 30, 2023 to the 3 and 6 months ended July 30, 2024. The increase in TAC was largely due to an increase in TAC paid to distribution partners. The TAC rate on Google Search & other revenues was substantially consistent from the three and six months ended June 30, 2023 to the 3 and 6 months ended July 30, 2024. The increase in other cost of revenues was primarily due to increases in content acquisition costs, largely for YouTube, and other technical infrastructure operations costs. R&D expenses increased \$1.7 billion from the six months ended June 30, 2023 to the six months ended June 30, 2024. Compensation expenses of \$585 million, depreciation expense of \$331 million, and third-party services fees of \$219 million. Sales and marketing expenses increased by \$11 million. General and administrative expenses decreased by \$96 million. General and administrative expenses decreased \$323 million and \$1.1 billion from the three and six months ended June 30, 2023 to the three months ended June 30, 2024, due to a combination of factors, none of which were individually significant. In addition to the costs included in Alphabet-level activities, hedging gains (losses) related to

revenue were \$3 million and \$102 million. For the three and six months ended June 30, 2023 and 2024, Alphabet-level activities included substantially all of the charges related to employee severance and our office space optimization efforts. For additional information relating to our segments, see Note 13 of the Notes to Consolidated Financial Statements included in Item 1 of this Quarterly Report on Form 10-Q. The increase in operating loss was primarily due to an increase in compensation expenses as a result of the reduction in valuation-based compensation liabilities related to certain Other Bets recognized in the prior year comparable period. OI&E increased \$2.1 billion from the six months ended June 30, 2023 to the six months ended June 30, 2024. Other income (expense), net \$ 65 \$ 126 \$ 855 \$ 2,969. Net unrealized gains on non-marketable equity securities increased by \$1 billion from the six months ended June 30, 2023 to the six months ended June 30, 2024. The effective tax rate decreased from the three and six months ended June 30, 2023, to the three and six months ended July 2023. The OECD is coordinating negotiations among more than 140 countries with the goal of achieving consensus around substantial changes to international tax policies. As of June 30, 2024, we had \$100.7 billion in cash, cash equivalents, and short-term marketable securities. The primary use of capital continues to be to invest for the long-term growth of the business. Our primary uses of cash from operating activities include payments to distribution and Google Network partners, to employees for compensation, and to content providers. In Google Services, we also generate cash through consumer subscriptions, the sale of apps and in-app purchases, and devices. Cash provided by investing activities consists primarily of purchases of marketable and non-marketable securities. We expect existing cash, cash equivalents, short-term marketable securities, and cash flows from operations to continue to be sufficient to fund our operating activities for at least the next 12 months. We make investments in land and buildings for data centers and offices and information technology assets. We expect to increase, relative to 2023, our investment in our technical infrastructure, including servers, network equipment, and data centers. Depreciation of our property and equipment commences when the deployment of such assets are completed and are ready for our intended use. Land is not depreciated. Finance lease costs were not material for the six months ended June 30, 2023 and 2024. We have a short-term debt financing program of up to \$10.0 billion through the issuance of commercial paper. In April 2023, the Board of Directors of Alphabet authorized the company to repurchase up to \$70.0 billion of its Class A and Class C shares. In April 2024, the Board of Directors of Alphabet authorized the company to repurchase up to an additional \$70.0 billion of its Class A and Class C shares. As of June 30, 2024, \$74.9 billion remained available for share repurchases. The company intends to pay quarterly cash dividends in the future, subject to review and approval by the company's Board of directors. In 2017, 2018, and 2019, the EC announced decisions that certain actions taken by Google infringed European competition law. While each EC decision is under appeal, we included the fines in accrued expenses and other current liabilities on our Consolidated Balance Sheets. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures can provide only reasonable assurance of achieving the desired control objectives. The design of disclosure controls must reflect the fact that there are resource constraints and that management is required to apply its judgment in evaluating the benefits of possible controls and procedures relative to their costs. Exhibit 101. instance document does not appear in the Interactive Data File because its XBRL tags are embedded within the Inline XBRL document. Exhibit 104. example document does not appear because its XBRL tag is embedded in the Inlineschema document.

Litigations

During the fiscal quarter ended June 30, 2024, the following Section 16 officers and director adopted, modified, or terminated a "Rule 10 b 5-1 trading arrangement" (as defined in Item 408 of Regulation S-K of the Exchange Act) The new trading plan will be effective until February 27, 2027 to sell 100% of the (net) shares resulting from the vesting of 355,887 (gross) shares of Class C Capital Stock during the plan period. There were no "non-Rule 10 b 5-1 trading arrangements" adopted, modified or terminated during the fiscal quarter ended June 30, 2024. The crediting of dividend equivalent units is intended to preserve the equity-based incentives intended by the company when the stock units were granted and to treat the holders of stock units consistently with all stockholders. 50

Investments

The repurchase program does not have an expiration date. The company intends to pay quarterly cash dividends in the future, subject to review and approval by the company's Board of Directors in its sole discretion.
